- CRM & Fulfillment**
- EIT**
- Custom Assembly & Material Management**
- Broadband Management Services**
- Reverse Logistic Services & Handset Repair**

Our personality...our philosophy is to support our OEM and carrier partners as we have for more than 16 years.

We are agile. We minimize the complexities associated with the deployment of broadband communication networks.

We put the best minds to work to deliver integrated service solutions, which enable our partners to participate effectively in the new broadband economy.
